Summary

• Computer Engineering undergraduate with hands-on experience in Flutter, Android Development, Firebase, REST APIs, Java, Kotlin, and SQL. Developed real-world mobile applications through freelancing and internship experience. Strong foundation in Data Structures, Algorithms, OOP, DBMS, Operating Systems, and Computer Networks. Passionate about building scalable mobile applications and seeking Software Engineer, Android Developer, or Flutter Developer opportunities.

Skills

- Programming Languages- Java | Python | PHP | Dart | Kotlin | SQL | C++ | HTML | CSS
- Mobile Development- Flutter | Android SDK | Android Studio | MVVM | XML | GetX | Riverpod | Material Design
- API & Backend Development- REST APIs | API Integration | Retrofit | JSON | SQLite | MySQL | Firebase Authentication
- Cloud & Database Technologies- Firebase | Firebase Storage | Firebase Firestore | FCM (Firebase Cloud Messaging) | GCP | AWS
- Computer Science Fundamentals- Data Structures | Algorithms | OOP | DBMS | CN | Operating Systems | Software Engineering | SDLC
- Development & Collaboration Tools- Git | GitHub | Postman | Figma | XAMPP

Experience

- **Freelancing** *Jalgaon, India* 09/2024 - Present
 - Developed and maintained cross-platform mobile applications using Flutter and Dart for real estate and retail marketplace platforms.
 - Built scalable application architecture using Riverpod and GetX state management.
 - Integrated REST APIs, Firebase Authentication, Cloud Firestore, Push Notifications, and local storage solutions.
 - Developed responsive UI components following Material Design principles for enhanced user experience.
 - Implemented role-based authentication, form validation, API error handling, and reusable widget architecture.
 - Collaborated with clients to gather requirements, deliver features, and resolve application issues.
- **Software Engineer, Intern** *Mountreach Solutions* *Amravati, India* 09/2022 - 12/2022
 - Developed Android applications using Java, Kotlin, XML, and MVVM Architecture.
 - Integrated Firebase services for real-time database synchronization and push notifications.
 - Implemented REST API communication using Retrofit and Volley libraries.
 - Designed responsive user interfaces following Material Design guidelines.
 - Worked with Location Services, SMS Services, TensorFlow Lite, PDF generation, Excel processing, and JSON parsing.

Education

Bachelor of Technology: Computer Engineering

• Government College of Engineering, [Jalgaon](#), India **Completed** **CGPA: 8.28** 07/2023 – 05/2026

Diploma: Information Technology

• Government Polytechnic [Ambad](#), Maharashtra, India **Completed** **Grade: 8.8** 08/2020 – 06/2023

Personal Projects

- **Setu Suvidha - Digital Citizen Service Platform** | Flutter | [GitHub](#)
 - Developed a multi-role platform connecting citizens with authorized Setu Suvidha Kendras for government service applications.
 - Implemented user, service center, and admin modules with role-based authentication and authorization.
 - Built service application workflows including document upload, application tracking, status updates, and approval management.
 - Integrated Firebase Authentication, Cloud Firestore, and push notifications for real-time updates.
 - Designed scalable architecture using Flutter, Riverpod, and reusable UI components to improve maintainability.
- **Arthsetu – Smart Expense & Transaction Management System** | [GitHub](#)
 - Developed a personal finance management application for transaction tracking and analysis.
 - Implemented automated transaction categorization and reporting features.
 - Built real-time dashboards to visualize spending patterns and financial insights.
 - Integrated Firebase for secure authentication and cloud data synchronization.
 - Optimized application performance and user experience through modular architecture.

Languages

- English, Hindi, Marathi

Achievement & Certifications

- Android Development Internship Certification – Mountreach Solutions Pvt. Ltd.
- Solved 100+ Data Structures and Algorithms problems on [LeetCode](#) using Java.
- Developed production-ready Flutter and Android applications.
- Strong understanding of OOP, DBMS, Operating Systems, and Computer Networks.
